Its all about Sport Cricket In Indiana

WEDNESDAY, JULY 11, 2012

Westfield Grand Park with Sport Cricket !

Mr. Andy Cook, Mayor of Westfield, also pioneer behind the Grand Park, welcomed sport Cricket. After meeting with Jatin Patel – Vice President US Youth cricket association and also President Indiana. Both agreed with the concept to bring Cricket to the park in future. 350 acre Grand park construction is in its first phase, where soccer and baseball/softball grounds are priority. By 2014 it's expected to complete construction and it has

strong possibility to expand to 400 acre park in future, Westfield City love to have all possible world known sports and year around usage of Facility as their primary goal to involve more sports at the park.

Per Jatin Patel, Youth cricket and recreational cricket may have possibility to line up with soccer /baseball fields with options to use portable pitches and minor adjustments to the existing fields. Initial talks are promising and we look forward for future talks with plans to bring cricket at Westfield Grand Park.

Mayor is expecting to have all major sports to be part of this facility to make unique sports complex in the nation. Cricket is another sport which can fit at Grand Park like Rugby, Lacrosse & Field Hockey.
